<sup>2</sup> This table is intended to be a high level summary for existing lenders as well as investors engaged in direct lending and secondary trading of non-performing loans, in each case secured over real estate. This table contains information which is general in nature and subject to changes in applicable law at any time. It is not intended to replace detailed, transaction specific legal advice.

<sup>3</sup> It is common for real estate assets located in Europe to be held through Luxembourg holding structures. For a summary of enforcement methods and the consequences of insolvency, please see our guide [here](#).

| <b>Level of Creditor Control</b>  | <b>High.</b> Enforcement led by secured creditor.   | <b>Low.</b> Most enforcement processes start with formal notice to the debtor, giving it sufficient time to file for insolvency. Average length is 3-3.5 years, provided not subject to debtor objection which could add years to enforcement process.</p> <p><b>Private Enforcement:</b> Up to 150 days' notice of intention to enforce; if debtor objects, could take up to 9 years.</p> <p><b>Judicial Enforcement:</b> 6-12 months; if debtor objects, could take up to 9 years.</p> <p><b>Appropriation:</b> Quite variable. In principle should be quicker than public auction in the context of judicial enforcement; however, if debtor objects, could take up to 9 years.</p> <p><b>Collection:</b> Minimal.</p> <p><b>Patto Marciano:</b> Automatic upon material default by the debtor.</p> | <p><b>Private Sale or Appropriation:</b> Quick (weeks), driven by commercial agreement.</p> <p><b>Forced Auction or Forced Administration (Real Estate):</b> 4-12 months, provided not interrupted by insolvency proceedings.</p> <p><b>Public Auction (Shares):</b> 4-12 months.</p> <p><b>Collection:</b> Minimal.</p>  |
| <b>Cost</b>                                | <p><b>Minimal-Moderate.</b> Depends on process to establish value of secured assets and receiver/administrator fees (if applicable). In the case of foreclosure, also depends on court costs.</p> <p>To the extent enforcement results in transfer of ownership to secured creditors, <b>stamp duty</b> will apply (on property based on sliding scale determined by nature and value of property, on shares at 0.5%).</p>  | <p><b>Moderate-Expensive,</b> for Judicial Foreclosure or other enforcement over property, dependent on debtor objection. Minimal-Moderate for other enforcement processes. Depends on process to establish valuation and degree of resistance by debtor to enforcement process.</p> <p>To the extent enforcement results in transfer of ownership to secured creditors, of:</p> <ul style="list-style-type: none"> <li>- the <b>property:</b> related fees and taxes are linked to the value and nature of the real estate asset transferred (equal to those applicable in case of disposal); or</li> <li>- the <b>shares in real estate companies:</b> transfer tax may apply at a rate of 5%.</li> </ul>   | <p><b>Moderate.</b> Depends on process to establish valuation, amount of debt secured (determines notary fees, court fees and court taxes), and region of Spain in which enforcement procedure takes place.</p> <p>To the extent enforcement results in transfer of ownership of property to secured creditors, either (i) <b>transfer tax</b> (at 6-11%) or (ii) <b>VAT</b> (10 % or 21%, depending on type of property) plus <b>stamp duty</b> (0.5%-2.5%) will be payable. There is no transfer tax or VAT payable on transfer of shares pursuant to enforcement.</p> | <p><b>Moderate-Expensive.</b> Depends on process to establish valuation, judicial fees (highly variable in the case of foreclosure), notary fees and degree of resistance by debtor to enforcement process.</p> <p>On enforcement of the documents of a transaction, <b>registration tax</b> (nominal to 3%) and negligible <b>stamp duty</b> will be payable.</p>  | <p><b>Moderate-Expensive.</b> Depends on process to establish valuation and property value (determines notary and court fees).</p> <p>To the extent enforcement results in transfer of ownership of property to secured creditors, <b>transfer tax</b> (currently between 3.5% to 6.5% on property or shares in property owning entity, depending on the federal state in which the property is located). <b>Registration fees</b> also payable (nominal cost).</p>                 |
| <b>Legal definition of insolvency</b>      | If it becomes unable to pay its debts as they fall due or where the value of its assets is less than its liabilities, taking into account contingent and prospective liabilities.   | If it becomes unable to meet its debts as they fall due and cannot pay them out of cash and/or cash equivalent resources available to it ("cessation of payment") (in which case it must file for judicial receivership within 45 days).  | If it becomes unable to meet its matured obligations (current or actual insolvency) or if it anticipates that it will not be able to meet its obligations regularly and punctually (imminent insolvency) (in which case it must file for insolvency within 2 months). Only the debtor can apply for insolvency on the grounds of imminent insolvency.  | If it becomes unable, on a permanent basis, to pay its debts as they fall due (in which case directors must file for insolvency in a 'timely' manner). Certain rescue procedures available if debtor is temporarily unable to pay its debts as they fall due.   | If it is balance sheet over-indebted (i.e. net assets do not cover the registered share capital), unless there is a positive prognosis for continuation of the business; or if it is illiquid (i.e. unable to pay its due payment obligations) (in which case it must file for insolvency within 3 weeks). The debtor can apply for insolvency on the grounds of threatening illiquidity.   |
| <b>Impact of insolvency on enforcement</b> | <p><b>Automatic moratorium</b> on enforcement in administration (unless with consent of administrator or the court). No moratorium in receivership.</p> <p><b>Standalone moratorium</b> introduced into law in July 2020 to assist rescue, subject to entry conditions. During the moratorium the debtor benefits from a holiday on pre-moratorium debts, although no holiday applies to financial creditors or in respect of rental payments due to landlords. While possible, property owning SPVs are perhaps less likely to use the moratorium given they typically do not have significant exposure to trading debts. This moratorium is available for debtors on an opt-in basis.</p> <p>To the extent that this moratorium applies enforcement would require the consent of the court.<sup>4</sup></p> | <p><b>Automatic moratorium</b> on enforcement during safeguard or judicial receivership (6-12 or exceptionally 18 months) or during any continuation of business in judicial liquidation (3-6 months), except (in particular) in relation to Dailly-form assignments.</p> <p>Except for limited exceptions, payments under pre-existing debts and termination of on-going contracts are also prohibited during that period.</p> <p>Specific rules and shorter deadlines apply to accelerated financial safeguard (to be completed within one month, renewable once) and accelerated safeguard (to be completed within three months).</p> <p>During (and shortly after) insolvency proceedings, creditors regain enforcement rights in very limited circumstances.</p> | <p><b>Automatic moratorium</b> in respect of assets necessary for continuation of business during pre-insolvency (6 months) and formal insolvency (12 months). Enforcement permitted if property not considered by the court to be linked to or necessary for the continuation of business.</p> <p>If the SPV is a foreign SPV it might file for insolvency in Spain on the basis of its COMI being in Spain in order to benefit from the moratorium on enforcement.</p>   | <p><b>Automatic moratorium</b> during period of composition with creditors or bankruptcy; for 60 days following filing for debt restructuring arrangement process.</p>  | <p><b>Enforcement is limited.</b> In practice, secured creditors and insolvency administrator often agree realisation and "cold" administration agreements in respect of secured assets. The insolvency court may impose preliminary protective measures before the insolvency proceedings are formally opened, such as installing a preliminary insolvency administrator or imposing restrictions on enforcement of certain assets necessary for continuation of the business.</p> |

| <b>Has any temporary legislation (or other government intervention) been introduced in response to Covid-19 that would restrict or prohibit the enforcement of security or similar action?<sup>5</sup></b> | <p><b>No restriction or prohibition on enforcement as a result of Covid-19</b> but some temporary measures have been introduced which could affect actions ancillary to enforcement:</p> <ol style="list-style-type: none"> <li>1. Winding up petitions presented during the 'Relevant Period' (between 1 March 2020 and 31 December 2020, subject to possible further extension) will be reviewed by the court. Winding up orders will not be made if the debtor cannot pay its debts because of Covid-19.</li> <li>2. Statutory demands will be void if issued against a debtor during the Relevant Period.</li> </ol> | <p><b>Temporary legislation affects preventive and insolvency proceedings in many respects.</b></p> <p>Measures include the extension of various deadlines under French bankruptcy laws, a wider access of distressed companies to accelerated safeguard proceedings (and financial accelerated safeguard) and the creation of a new priority claim for new money providers during insolvency proceedings.</p> <p><b>Some changes can affect the processes described above and enforcement of security:</b></p> <ul style="list-style-type: none"> <li>- Conciliation proceedings opened until 23 August 2020 (inclusive) can last up to ten months (instead of five) and conciliation rules can affect enforcement.</li> <li>- Until 31 December 2020 (inclusive) (expected to be extended to 31 December 2021), if a creditor does not suspend the maturity of its claim for the time of the conciliation proceedings when the conciliator so requests, the debtor may ask the president of the insolvency court: <ul style="list-style-type: none"> <li>• to interrupt or prohibit any legal action for payment or for termination of contract triggered by payment default;</li> <li>• to stop or prohibit enforcement and distribution proceedings;</li> <li>• to postpone or reschedule payments, without incurring late payment fees or penalties.</li> </ul> </li> </ul> <p>Such measures will remain effective for the duration of the proceedings.</p> <p>In the same circumstances as described above, the debtor may also ask the president of the insolvency court for the early application of the French Civil Code grace periods (not to exceed two years), even if no formal notice has been served nor enforcement measure taken by the creditor.</p> | <p><b>No restriction or prohibition on enforcement as a result of Covid-19.</b> However, some temporary measures have been introduced/ carried out which may have an impact:</p> <ol style="list-style-type: none"> <li>1. Until 31 December 2020, any insolvent debtor will not have the duty to apply for insolvency.</li> <li>2. The Spanish Courts issued certain rulings in favour of tenant-debtors and preventing landlord-creditors enforcing contractual guarantees supporting tenants' obligation to pay rent.</li> </ol> | <p><b>No restriction or prohibition on enforcement as a result of temporary legislation (or other government intervention) introduced in response to Covid-19.</b></p> <p>However, as regards lease agreements, it should be noted that, during the period in which (most) retail premises have been closed pursuant to the emergency laws, certain judgments issued by the Italian Courts have intervened in favour of the tenants-debtors and preventing landlord-creditors enforcing contractual guarantees supporting the tenants' obligation to pay rent.</p> | <p><b>No restriction or prohibition on enforcement as a result of Covid-19 currently in place.</b></p> <p>However, a temporary stay of the legal obligation to file for insolvency upon becoming insolvent was introduced for cases where insolvency results from Covid-19 related impairments. The stay is currently in force until 31 December 2020 for cases of balance sheet over-indebtedness, but not for cases where the debtor is insolvent due to illiquidity.</p> |

<sup>5</sup> Enforcement of security, particularly involving owner-occupier properties (or where the landlord and tenant are part of the same corporate group), may be complicated by measures enacted to restrict the ability of landlord to forfeit leases for non-payment of rent.
